PURPOSE OF THIS PROJECT

The purpose of any animal project is to help teach youth life skills. Life skills that youth need in order to transition into a healthy, responsible adult.

Animal projects specifically target the following life skills:

- *Responsibility (feeding and caring for an animal on a regular basis)
- *Determination (working with the animal on a regular basis in order to show it)
- *Record Keeping (keeping a record of the animal's health and feeding)
- *Money/Resource Management (keeping track of how much money or other resources)
- *Sportmanship (practice being a good winner and a good loser through competition with peers and with self)
- *Marketing

ANIMAL HEALTH

Examples of Animal Health or problems include:

wounds, fever, internal or external parasites, vaccinations, other shots, annual physical check-up and hoof trimming

My 4-H/FFA Animal Science Experience

1. How did you get interested in an animal project? What do you want to get out of it?

2. If you've been in the animal program more than one year, are you doing anything different with your animal(s) this year? Explain your answer.

3. How did you decide on the house/barn/pen your animal would stay in? Describe where they live. How did you keep it clean?

4. Explain what was the rations fed to your animal(s) and how you decided what diet was required and how you fed it.

5. Tell how you trained and prepared your animal(s) for show.

6. Explain how you are financing your animal livestock project(s) this year and if you earn any money from this project, what will you do with it?

7. What were your project management challenges this year? Explain the process you used to resolve them.

8. Reflecting on your records, how can your future animal projects be improved?
